Valuation questions

Parcel Numbering System Explanation: The Assessment number, when used to describe property, refers to the Assessor's map book, the map page, the block on the map, if applicable, and the individual parcel number on the map page or in the block. A parcel number, such as 048-523-013-000, is analyzed as follows: 048 would be the map book number, 523 would be map page 52, and block 3 (if the "3" were a "0", that page would not contain a block), 013 is the parcel number and 000 is a coded suffix to the parcel number denoting total ownership of interest and rights in parcel 013.
